Accessible Buses: Accessible buses serve many regular TTC routes in Toronto. You will recognize an accessible bus stop by the international wheelchair symbol on the post. You can get on and off accessible buses at designated accessible stops. Not all stops along an accessible route are accessible.

Subway Strip Maps Explanation

All TTC surface routes (except routes 99, 171, 403, and 405) connect with the subway system. Specific connections for all surface routes and branches of routes are shown on the Subway Strip Maps to the right and below. A grey background indicates a GTA PASS or additional fare is required to connect between subway system and these routes.

How To Read Bus Route Numbers and Notes

- A* indicates that all branches run along that portion of the route.
- Arrows indicate the presence of all branches: the 87A, the 87B, the 87C.
- A* separates each branch in a route box where only some of the branches follow that portion of the route. For example, 87A indicates that the 87A and the 87B are present; the 87B is not. Alternatively, 87A.B indicates the presence of the 87A and the 87B, but not the 87C.
- A rectangular box indicates a route end point or a branch of a route end point.
- A pointed box is angled to show the direction of travel.
- A yellow rectangular box indicates the end point of an express route or the end point of an express branch of a route. Note that route lines are not shown for express branches on regular routes.
- A yellow pointed box shows the direction of travel on Express and Rocket routes.
